

Numerology Readings

Unlike the logical left brain approach to maths, we use a right brain and intuitive approach, you do not need to be a brilliant mathematician to study this subject.

Movement and rhythm are constant, with it comes the heartbeat, seasons, day and night, planets moving around the solar system all at a regular pace and slowly evolving.

Numbers gradually developed to record all these natural rhythms in nature; hence, the use of numbers to record our daily progressions.

To put it simply numbers are energy, with a phenomenal capacity to move in many varied and diverse directions. With numerology, all numbers are broken down to single digits e.g. 48 being the double digit, is broken down to $4 + 8 = 12$ and then, to break this down further, $1 + 2 = 3$, this being the final breakdown. Each number, from one to nine, has its own distinctive vibration, but also one takes into consideration, where the single digit has come from, e.g. 48. Here we look at the 4 and the 8, plus the 12 that has been broken down the second time, understanding that you are not only a **3** but there is energy coming from all angles, so creating the complex and the unique character that you are.

Four main numbers play different roles in our chart, the main one coming from your date of birth e.g. 17/ 10/ 1968. You take the day and month to add together without breaking down to single digits e.g. $17 + 10 = 27$ Then you take the year 1968 and here you break down to single digits e.g. $1+9+6+8= 24$ You then take the total of the day and month 27 and the total of the year 24 and add together e.g. $27+24= 51$. Hence you are 51/6 .This is the song you should be singing, to harmonise with the universe, to bring out the true you. Each note in music has a particular vibration, the same applies to numbers. This isn't all we look further into your birth date doing various charts that view it from all angles. The other three main numbers come from your Name, but again this is not all.

There are cycles within cycles building an overall picture to create an intricate web, linking all with an invisible thread. Intriguing, well - this is just the start!

Quite simply the only information we need from you is your date of birth and your full name in order to work out your personal reading.
